APPLICATIONS FOR ADMISSION

may be made at the Hospital; also to the Committees on Admission—

Mrs. S. E. Peart, Committee on Admission of Adults.

Mrs. J. W. Kerr, Committee on Admission of Children.

The work of the Hospital is divided into the following services, each of which will be conducted by the physician in charge continuously throughout the year:—

Surgery and Gynecology.

Beverly MacMonagle, M. D.

Medical Diseases of Women.

L. M. F. Wanzer, M. D.

Wm. Watt Kerr, M. D.

Alice M. Woods, M. D.

Medical and Surgical Diseases of Children.

Emma Sutro Merritt, M. D.

Frances R. Sprague, M. D.

Orthopedic Surgery.

Harry M. Sherman, M. D.

S. J. Hunkin, M. D.

Diseases of the Eye, Ear, Nose and Throat.

Wm. E. Hopkins, M. D.

Edward K. Hopkins, M. D.

Obstetrics.

Charles A. von Hoffman, M. D.

Adelaide Brown, M. D.

Contagious Diseases.

Wm. B. Lewitt, M. D.

Dermatology.

Howard Morrow, M. D.

Pathology.

R. Leona Ash, M. D.

HOSPITAL CLINIC.**Eye, Ear, Nose and Throat.**

Tuesday and Friday—9 A. M.

Wm. E. Hopkins, M. D.

E. K. Hopkins, M. D.

ANNOUNCEMENT.

OBJECTS OF THE HOSPITAL

First. To provide medical and surgical aid for sick children ; this being the main charity. No deserving case is ever refused as long as there is a bed vacant.

In the "Little Jim" Ward twenty-five beds have been set apart for incurable cases. The "Little Jim" is a *hospital* not a home for crippled children who are otherwise well. It is intended for those little unfortunates whose pain and suffering can be relieved by medical care and attention.

Second. To provide medical and surgical aid for sick women. This is one source of revenue, and is a most important branch of the work. The rooms for these patients are bright and attractive, and the dainty "Sun Room" for convalescents is a most inviting spot. The operating room is fitted with every modern appliance. The best of care and attention is guaranteed.

Outside physicians desiring to place their patients in the Hospital and to attend them are invited to do so, and may feel assured that their patients will receive every attention.

The adult cases admitted into the Hospital are divided into three classes.

1st. *Those who are destitute and unable to pay anything.* For such cases there are three free hospital beds, a medical, a surgical and an obstetrical ; besides these there are the "Henry C. Merrill" endowed free surgical bed, the "Susan Holbrook" endowed free surgical bed, and the "Charlotte Blake Brown" free surgical bed.

2d. *Those who are able to pay hospital charges only.* To such cases, the services of the Hospital staff are given free of charge.

3d. *Those who are able to pay hospital charges and also for medical attendance.* Such patients desiring to enter the Hospital may make their arrangements with any member of the Hospital Staff or any outside physician whom they desire.

Third. To educate nurses; the design being to fit healthy young women to engage intelligently in this work by a three years' course of reading, lectures and practical nursing. The nurses are thoroughly trained in every department of the work.

The Resident Physician will be constantly in attendance at the Hospital to receive applications for admission.

RULES AND REGULATIONS.

- I. The institution shall be under the charge of the Superintendent and of the Resident Physician.
- II. PATIENTS shall be admitted and discharged by the Resident Physician, subject to the approval of the Attending Physician.

No Patient shall leave the Hospital except by permission of the Resident or the Attending Physician.
NO Patient allowed out after nightfall.
- III. Meals for Patients served punctually at hours designated. Breakfast, 7, a. m.; Dinner, 12 m.; Supper, 5 p. m. Children allowed lunch morning and afternoon.
- IV. Visitors are not allowed to distribute food, fruit, confectionery or liquors to patients.
- V. Visiting days for children: Tuesdays, Thursdays and Sundays from 2 to 4 p. m. On Sundays parents only are admitted. Adult patients may have visitors any afternoon from 2 to 4 o'clock; at other times special permit must be obtained from the Resident Physician. No person admitted in the evening except by special permission. Children under fifteen years of age will not be admitted as visitors.
- VI. Lights in the Wards must be out at 8 p. m. All lights in the Hospital must be out at 10 p. m. From 9 p. m. to 6 a. m. the Hospital must be kept perfectly quiet.
- VII. All complaints must be made to the Attending, or to the Resident Physician, and in case of their inability to remove the difficulty, they shall report to the Board of Managers.
- VIII. A kind and courteous demeanor is expected on the part of the Nurses and Inmates toward all with whom they come in contact.

- IX. Neatness and punctuality are expected from all inmates of the Hospital.
- X. Bills are payable weekly, in advance, or when presented by the Superintendent.
- XI. Adult patients' washing is not included in weekly rates. It must be sent out.
- XII. Patients discharged must have a certificate signed by the Resident Physician.
- XIII. The Resident Physician has the exclusive power to admit or exclude visitors. No patient may have more than TWO visitors on the same day, except by special permission.
- XIV. A record must be kept of all patients entering the Hospital. Applications may be made to the Resident Physician for examination and treatment at the Hospital. Inquiries regarding the Medical Department will be answered only by Resident Physician or Internes.
No incurable adult cases will be admitted.

HOSPITAL RATES.

BILLS ARE PAYABLE WEEKLY IN ADVANCE, OR WHEN PRESENTED
BY THE SUPERINTENDENT.

Single Room for Adults.....	\$25.00 to \$35.00 per week
Two Adult Patients in room (each) ..	15.00 “ “
Three Adult Patients in room (each) .	10.50 “ “
Case in Contagious Cottage.....	25.00 “ “
(The Contagious Cottage is only for use by the Hospital Staff.)	
Obstetrical cases.....	From \$15.00 to \$30.00 per week
Confinement Fee.....	25.00
Children in Wards (full rates)....	\$28.00 per month

Special arrangements made by Chairman of Committee on
Admission of Children.

Children in room containing two beds.....	\$38.00 per month
Special nurse	\$20.00 per week
Operating Room Fee.....	10.00
Special Anæsthetist	10.00
Laboratory Service (for adults).....	1.00

Drugs and Dressings, Medical and Surgical Supplies extra
for adults.

PRESIDENT'S ADDRESS.

Friends and Ladies of the Board of Managers:

As is well known to you all, the almost continuous prosperity which for years our beloved Hospital has enjoyed, from its foundation, was suddenly checked by the calamity which befell San Francisco on April 18th last. Thanks to an overruling Providence, the conflagration did not reach our buildings and the damage was far less than might have been expected. Better than all this, for which we have reason to be most thankful, no lives, either of patients or employees, were lost, and no one was injured.

In the trying hours of April, all connected with the institution faced the great emergency with courage and fortitude, and through their efforts the danger and difficulty which surrounded us was met and overcome so far as was within the power of unselfish devotion and untiring effort to accomplish.

All this, my friends, is in the past, our present duty is to wisely utilize the facilities we have, and in the future, as in the past, in so far as our resources will permit, to increase them gradually until they are adequate to the demands of this great and rapidly increasing community.

That no long period will elapse before means will be possible for these wants, I am confident.

The high record of our hospital for many years; the human suffering it has alleviated among women and children; its importance as a thorough and efficient training school for nurses, have given it such a standing and place in public and private regard in San Francisco that I am sure with the increasing prosperity which is bound to come to our citizens as the result of this unprecedented energy and faith in its future, their generosity towards us will be fully equal to our necessities.

Let us in our work but imitate this enterprising spirit, and all will be well.

The calamity of April last did comparatively little injury to our brick buildings, but our wooden edifice was considerably damaged.

For a time much doubt existed as to the advisability of repairing this building, but it was thought that it might serve our purposes until financial conditions would permit its being replaced by one better suited to the growing demands of the work.

As more room was imperatively needed for the housing of our Internes and servants, it has been decided to make such repairs as will permit of its temporary use for this purpose. This year a large number of our patients have been women and children sufferers as a result of accident and lack of shelter. Fortunately, we were in a position to undertake this work, the cost of which to a considerable extent has been paid by the Relief and Red Cross Committee. In addition to this we were the recipients of a considerable sum from the committee, which will be of great advantage in the rehabilitation of the Hospital, as we shall bend all our energies to this purpose.

As was to have been expected, the income of the Hospital from outside sources greatly declined. Our monthly subscriptions nearly all fell off, but we trust will again be renewed.

Your Treasurer's report will show the extent of decline. Considering the unparalleled conditions that have existed we have every reason to be thankful that our finances were not more seriously impaired.

The work before your new administration is arduous, but they will bring to it long familiarity with the operation of the Hospital, and a zeal for its welfare which must overcome all difficulties, great as they may now appear.

Since I became connected with the Hospital a generation has passed. Of those who at that time were my fellow-workers scarcely any survive, either of the Board of Managers

or among the physicians. In common with those who have been associated with me to promote its welfare has been a labor of love and we have found abundant compensation in the success which under Providence has come to the institution under our charge.

May it grow and prosper with our beloved city—a city patient under disaster and undismayed by calamity.

Respectfully submitted,

MRS. WILLARD B. HARRINGTON, President.

RECORDING SECRETARY'S ANNUAL REPORT.

To the Board of Managers, the Board of Trustees, and Members of the Association of the Hospital for Children and Training School for Nurses:

I have the honor to present the following review of the transactions of the Hospital during the last fiscal year and report upon its present condition.

THE BOARD.

The annual, twelve regular and five special meetings have been held by the Board. During the period under review the following changes have taken place in the personnel of the Board: Mrs. William Hardy, who has been associated with the work since its beginning and who for many years occupied the position of First Vice-President, has been missed from the meetings, failing health preventing her usual, regular, and interested attendance. Ill health also caused a loss to the Board in the enforced retirement of Miss Frances M. Doyle. It is also a matter of regret that Mrs. John F. Merrill found it impossible to continue her valued connection with the Board. A change of residence caused the resignation of Mrs. John H. Dickinson, which was accepted with great regret, and the hope was expressed that she would return to the city at some future time and again take up her work which she had carried on so faithfully and well for many years. Mrs. I. N. Walter was welcomed back to the Board in December after a long sojourn abroad. Leave of absence was granted Mrs. Helen Hecht.

To fill existing vacancies Mrs. Silas Palmer, Mrs. Jeannette E. Merritt, Mrs. Latham McMullen, Mrs. Augustus Taylor and Mrs. T. L. Miller were elected.

At the February meeting to the regret of the entire Board, after serving so efficiently and ably for four years as

Recording Secretary, Mrs. C. E. Holmes resigned the office and the incumbent was elected.

THE TRUSTEES.

No change has occurred in the Board of Trustees, and their counsel and advice have been of great benefit during this trying year.

VISITING STAFF.

At the Annual Meeting in 1906 the Visiting Staff was further strengthened by the addition of R. Leona Ash, M. D., and the Assistant Visiting Staff by Tracey G. Russell, M. D., and A. J. Lartigau, M. D.

DISPENSARY.

The Pacific Dispensary was rendering its usual valuable service when completely destroyed by the great fire of April 18th, since which time it has not been possible to re-establish the work, although the Staff stands ready and willing to resume its labors at the first opportunity. As the records were all destroyed a detailed report will necessarily be omitted in the Annual Report.

HOSPITAL STAFF.

Dr. Julia Larson has continued her good work as Resident Physician. Six internes have been on duty during most of the year.

Miss Katharine Brown has still served efficiently as Superintendent of Nurses. Miss I. M. Sanderson has filled the position of operating room nurse most satisfactorily. Miss Eleanor G. Holden, whose excellent work as Night Superintendent of Nurses was much appreciated, was obliged to resign her position on account of ill health. Miss Dora A. Tooze was appointed her successor. Owing to the resignation of Mrs. A. S. Pollock, Mrs. A. S. Wildman was elected Matron at the meeting in November.

Mr. Martin W. Fleming has done excellent service as Superintendent of the Hospital.

TAY MEMORIAL ANNEX.

During the year just passed, in addition to its usual service, the Tay Memorial Annex at Elmhurst has proved of inestimable value to the Hospital by relieving the crowded condition of the main wards. The house and the tents have been made comfortable for the winter and the expediency of keeping the Home open all the year is being tried.

The Auxiliaries have provided the children with Easter, Thanksgiving and Christmas feasts as usual.

HOSPITAL SERVICE.

From the standpoint of averages, the year's Hospital work may be stated as follows:

YEAR ENDING DECEMBER 31, 1906.

Patients admitted for the year:

Children	703
Adults	466
Total	1169

Daily average of patients for the year:

Children	79.2
Adults	29.4
Total	108.6

Daily average of free patients for the year:

Children	18.3
Adults	4.1
Total	22.4

Free days treatment for the year:

Children	6688
Adults	1490
Total	8178

Days treatment for "Refugees," April 18th to December 31, 1906:

Children	9487
Adults	2828
Total	12,315

Daily average of "Refugee" Patients April 18 to December 31:

Children	37.6
Adults	11.2
Total	<u>48.8</u>

EARTHQUAKE EXPERIENCES.

The experiences of the Hospital and its Staff since the earthquake have been varied and trying, and at times it has seemed almost impossible for the work to go on with the degree of efficiency necessary.

Immediately following the great earthquake on that fateful day of April 18, 1906, it was found that all the buildings had suffered to some extent; chimneys were all down, and plastering in the main building badly shaken; the round buildings on Sacramento street, however, were practically uninjured.

Mr. Fleming, Dr. Larson, and her force of Internes, Miss Brown, Miss Holden, Miss Sanderson, every pupil nurse in the school, Mrs. Pollock, and the help generally were at work moving the patients, and in less than half an hour all were safely removed to these buildings. Later every one connected with the Institution went to work to clear away the debris on the first floor of the old main building, and to put it in readiness to receive the emergency patients from the down town regular and relief hospitals. There were 116 patients in the Hospital on the morning of April 18th, and 99 patients (48 adults and 51 children) were admitted suffering from the effects of the earthquake and fire and 50 patients from the outside received treatment either medical or surgical. Thursday, April 19th, was a day of great anxiety, and arrangements were made to move all patients in the event of that becoming necessary. Early that evening fears were set at rest by the receipt of information that the fire was under control.

On Friday morning, the 20th, the Superintendent, the Resident Physician, the Superintendent of Nurses and the Matron held a conference, at which Dr. Sherman was present, to consider the question of food, medical supplies, sanitation, and the feeding and care of the patients. The cooking was all

being done on one range, which had been set up out doors, and some needful laundry work had already been done, the patients were cared for well despite the heavy handicap of lack of heat and an adequate supply of water. Only five deaths occurred, four children and one adult. Of these the adult and one of the children had been received in a dying condition, and the other children were mal-nutrition babies, who were close to death when the earthquake occurred. At this time the supply of food was irregular, not of sufficient variety, and much of it had to be sent for. At a meeting of Hospital Superintendents, with representatives of the Military authorities and Red Cross Society, a plan was evolved which relieved the situation somewhat and which enabled the work to go forward without interruption. The concentration of patients made it possible to send out some of the nurses for duty at the Relief Hospitals when calls were received for the same.

APPRECIATED EFFICIENCY AND LOYALTY.

It is difficult to imagine how this complex situation could have been handled had it not been for the efficiency and executive ability of Superintendent Martin W. Fleming. At the same time our gratitude is due Dr. Larson and her Internes, Miss Brown and her nurses, Miss Holden, Mrs. Pollock, and in fact the entire working staff for their watchful care and uncomplaining attention to the many demands made upon them. Too much cannot be said in praise of the work of the nurses at this dreadful time, and their courage, loyalty and faithfulness to duty. Notwithstanding their keen anxiety for their own homes and families, not one deserted her post.

A MISFORTUNE AND A NEED.

One of the most serious misfortunes that befell the Hospital was the fact that the damage to the main building was later found to be so severe as to make it impracticable to repair it or use it in any way except temporarily for the housing of some of the Hospital help. The practical results of this condition are two-fold:

First, the removal of patients formerly cared for in the main building into the two other buildings, thus badly overcrowding the wards and seriously hampering the work and the general efficiency of the service; and

Second, the absolute pressing necessity for a new Hospital building. There can be no two opinions on this need; it is pressing and upon the early accomplishment of the purpose depends not alone the greater efficiency of the work but the larger influence of the Children's Hospital.

Without the early accomplishment of this plan the burden of San Francisco's destruction will fall more heavily upon the sick and suffering children than upon any other class because this Hospital is their only refuge.

BEQUESTS

During the year 1906, the following bequests have been received:

From the Estate of Susanna Brown.....	\$ 1,500 00
From the Estate of Henry Horstmann.....	4,000 00
From the Estate of Jane L. Stanford.....	10,000 00
From the Estate of Chas. F. Doe.....	5,844 00
From the Estate of Bartlett Doe	4,489 41
From the Estate of Elizabeth E. Smith.....	5,000 00
(To endow a memorial bed, to be known as the Sidney M. Smith Bed.)	
From the Estate of Emanuel Walter	2,850

DONATIONS.

The following donations have been received: S. N. Wood & Co., who had set aside a certain sum of money to be distributed among worthy charities, kindly remembered the Hospital to the extent of \$250; Mr. Raphael Weill, always mindful of the needs of the Children's Hospital, donated \$1200; Shreve's sale of fine China and bric-a-brac rescued from the fire, \$556.20; The San Francisco Relief and Red Cross Fund (a corporation), \$22,500; John D. Rockefeller Relief Fund, \$1500; Riverside Relief Fund, \$500; Friends in different parts of the country have sent various other sums.

DONATION DAY.

W. J. Sloane & Company again kindly placed their store at

the disposal of the Donation Day Committee, and it speaks volumes for the generosity of the people of San Francisco, that in spite of their personal losses and existing difficulties the sum of \$5,619 was received, Mr. James. L. Flood sending \$500 as usual, and Mrs. William H. Crocker the generous sum of \$2000. The Needle Work Guild of America sent 157 garments, besides a quantity of baby clothes.

ENDOWMENT FUND.

During the year \$5500 has been placed in the Endowment Fund and a very substantial start has been made on an accumulation of a building fund.

MERITED HONOR.

At the November meeting Mrs. W. B. Harrington, who has taken such an active interest in the work almost since its beginning and who for nearly thirty years has occupied the responsible position of President of the Board of Managers, expressed her desire, on account of impaired health and residence out of the city, to be relieved of the burden of the chief executive's work. Her faithful and untiring devotion to the cause will be remembered so long as the Children's Hospital shall last and the members of the Board will be glad to see her assume the merited position of Honorary President.

THE FUTURE.

We are now on the threshold of a new era in our City and in our Hospital. Harmony of purpose, co-operation in effort, have done wonders in tiding over temporarily at least the difficulties that arose in April. But these same qualities have before them the greater task of the complete rehabilitation of the Hospital through the securing of a modern up-to-date building.

PERSONAL RESPONSIBILITY.

The responsibility of this work must be felt by every member of the Association. It cannot be brought about by one

or two or even by the whole Board of Managers. It can and must be accomplished by the united efforts of every member of the Association as well as every San Franciscan to whom the welfare of suffering children appeals. The appeal of the Hospital must not be considered as an impersonal general one, but as a direct personal appeal for the help and the influence of each and every member of the organization.

As a new San Francisco arises, so must a new and greater Children's Hospital. Respectfully submitted,

ELEANOR LAIDLEY MILLER, Recording Secretary.

JENNIE M. DUNBAR, Treasurer.

ENDOWMENT FUND.

Mrs. W. B. Harrington, President, Hospital for Children and Training School for Nurses, City.

DEAR MADAM: Enclosed please find my report as Treasurer of the Endowment Fund of the Hospital for Children and Training School for Nurses from February 14th, 1906, to December 31st, 1906, showing a balance in the San Francisco Savings Union of \$8,664.53.

During the year, I have received for the Endowment Fund from the Charlotte Blake Brown Memorial Fund, \$3,315.35; from estate of Elizabeth E. Smith, for Endowment of the Sidney M. Smith Memorial Bed, \$5000; for perpetual care of the Emanuel Walter Memorial Bed, \$500.

The Trustees have invested \$3,212.50 for three (3) bonds of \$1000 each of the San Francisco, Oakland & San Jose Railway, second mortgage.

The securities on hand held by the Treasurer for the Endowment Fund are as follows:

2 bonds, Alameda, Oakland and Piedmont Electric Ry.....	\$ 2,000 00
17 bonds, S. F. and San Joaquin Valley R. R.....	17,000 00
5 bonds Los Angeles Lighting Co.....	5,000 00
5 bonds Los Angeles Railway Co.....	5,000 00
11 bonds Pacific Electric Railway Co.....	11,000 00
5 bonds Edison Electric Ry. Co. (\$1,000) 5%.....	5,000 00
5 bonds S. F., Oakland and San Jose Ry. Co. first Mtge...	5,000 00
3 bonds S. F., Oakland and San Jose Ry. Co. second Mtge..	3,000 00
25 shares Metropolis Trust and Savings Bank.....	2,500 00
100 shares Gas Consumers' Association.....	2,000 00

Total, being the par value of the same.....	\$57,500 00
Add Cash in San Francisco Savings Union.....	8,664 53
Total Endowment	\$66,164 53

In my last report, February 14, 1906, I reported....\$57,515 47

Which shows an Increase this year of..... 8,649 06

Respectfully submitted,

JAMES D. PHELAN,

Treasurer.

JAS. D. PHELAN,

Treasurer Endowment Fund.

CRUTCH AND SPLINT FUND.

TRUSTEES.

SIDNEY V. SMITH

J. LEONARD ABBOTT, JR.

The usual detailed report of the Crutch & Splint Fund cannot be given as the accounts of the first three months of 1906 were destroyed in the fire. By agreement with Mr. J. Leonard Abbott, Jr., for the trustees, and Mrs. Norman McLaren and Miss Alice Griffith, for the donors of the Fund, the new book of accounts was opened in May, with a credit balance of \$50.00, that being my recollection of the approximate unexpended balance for the first half of 1906.

The changed conditions after the fire and the little demand that was made on the Fund rendered it unnecessary to draw the second dividend for 1906, and so it was left in the bank to be added to the principal. This is the second time that this has been done, and these two additions to the Fund, together with one or two other small sums, have increased the principal from \$7087.30, the original amount in January, 1893, to \$7458.38, in January, 1907. This has been accomplished without denying any one who needed it, the assistance of the Fund.

In order to provide for the constant increase of this Fund, which should really last a limitless time, and can be expected to have much greater demands on it in the future, I have decided to pay back into the Fund, each year, ten per cent of the income. At present that will mean an increase of about twenty-six dollars per annum in the principal; but each year this amount will be larger, and in time the Fund must, by this means, become a very large sum.

Dec. 31, 1906.

HARRY M. SHERMAN, M. D.

Orthopedic Surgeon to the Children's Hospital.

BERKELEY SURGICAL WARD.

The fund in the German Savings and Loan Society remains, as by previous reports, \$2,144.84, plus the uncollected July, 1901, 1902, 1903, 1904, 1905 and 1906 dividends. The account in the Berkeley Bank of Savings is, as in my last report, \$381.05, to which is to be added the uncollected July, 1901, 1902, 1903, 1904, 1905 and 1906 dividends and the commercial account of \$71.45, which I have transferred to the savings account, as there has not existed a need of a commercial account for some time.

ANITA D. S. BLAKE, Treasurer.

ANNUAL REPORT OF THE AUXILIARY NO. 1.

To the Board of Managers:

In reviewing the work done by the Auxiliary during the year 1906, it compares very favorably with other years notwithstanding the fire on April 18th. The records of the Auxiliary were then destroyed.

Fifty-seven garments were sent to the Hospital on Easter, as the usual Lenten donation. Owing to the loss sustained by the Hospital the number of garments made by each member during the Summer was increased to five, making a total of eighty.

A chain letter was started by the Auxiliary in order to raise money to rebuild the main building of the Hospital. As the chain has not been completed up to date, it is impossible to state the amount raised.

Mrs. Lawrence Scott collected seventy-five dollars for our Christmas entertainment for the children. The Christmas dinner, Christmas trees, toys, candy, Punch and Judy Show, and Santa Claus, were all furnished by the Auxiliary, and thus gave the children more than their usual share of Christmas cheer.

The Auxiliary has continued to support a free bed in the Hospital, paying twenty-five dollars a month and twenty-five dollars a year for its replenishing.

CASH STATEMENT.

Balance on hand, January 1st, 1906.....	\$ 44 02

Respectfully submitted,

EMILY CAROLAN, Secretary,

MRS. AUGUSTUS TAYLOR,

President,

MRS. JOHN F. MERRILL,

Honorary President.

ANNUAL REPORT OF CHRYSANTHEMUM AUXILIARY NO. 2.

*To the Board of Directors of the Children's Hospital and
Members of the "Chrysanthemum Auxiliary."*

It is with pleasure that I am able to give an account of our work during the year just ended, and to say that, although we have had many changes in our membership, largely as a result of the calamity which came to our city in April, altering the lives and residence of so many people, we have not been prevented from supporting the bed bearing our name.

In February, for that has been the time of year we have always chosen to think of some means by which we could add materially to our account at the Bank, the scheme of sending out minature silk stockings, together with a merry little verse, we decided was a possible means of revenue. This little sock explained its presence by asking to be returned to our Treasurer containing as many pennies as the size of the receiver's stocking, multiplied by two. This brought to us \$105.50, not to mention many little verses in connection with the same, to explain that the size of the foot was not number fifty in spite of the enclosed dollar bill.

On Tuesday, April 3d, the last regular meeting was held until fall. So many things had happened to us all that our May meeting was quite forgotten for the time, and so it was not until September that we met together again.

It has been our custom at Thanksgiving to donate toward the children's dinner and on this occasion we sent them eighteen chickens, and at Christmas provided sufficient ornaments for three Christmas trees.

This is the substance of the year's work, and in the coming twelve months we hope to continue it along the same lines. With our new and old members combined, and with the ever interested and unfailing assistance of our Honorary Presi-

dent, Mrs. John F. Merrill, we trust we shall make the new year a memorable one for our Auxiliary.

Respectfully submitted,

RACHAEL A. HOVEY, President.

MRS. JOHN F. MERRILL, Honorary President.

January 1st, 1907.

ANNUAL REPORT OF SUPERINTENDENT.

To the Board of Managers, the Board of Trustees and Members of the Association of the Hospital for Children and Training School for Nurses:

I have the honor to submit a brief summary of the work performed at the Hospital for the year ending December 31, 1906.

	Adults	Children	
Number of patients in hospital Jan. 1, 1906	20	67	87
Number of patients admitted during the year	466	703	1,169
Number of patients dismissed during the year	462	709	1,171
Number of patients in hospital Dec. 31, 1906	24	61	85
Number of patients treated during the year	486	770	1,256
Daily average of patients	29.4	79.2	108.6
Daily average of free patients	4.1	18.3	22.4
Total days' treatment	10,525	28,366	38,891
Days' free treatment	1,490	6,688	8,178
Days' treatment for refugees	2,828	9,487	12,315
Daily average of refugee patients	11.2	37.6	48.8
Refugee patients admitted Apr. 18 to Dec. 31, 1906	99	231	330
Deaths during the year	11	96	107
Births during the year—Males 77, Females 73; Total 150.			

For detailed report of the treatment of patients I beg to refer you to the report of Dr. Julia P. Larson, Resident Physician. The report of the esteemed Treasurer of the Hospital, Mrs. L. L. Dunbar, will contain all information relative to the finances of the institution.

The past year has been the most successful, as well perhaps as the most trying year in the history of the Hospital. Successful in a financial sense, as well as in affording the institution an opportunity to do in a most creditable manner its part in the relief given poor patients after the great calamity of last April; and trying, in that the calamity caused apprehension and anxiety to the Managers and friends of the Hospital, and imposed hard work and most severe conditions on the working force of the institution.

Everybody connected with the institution—and particularly the nursing force—has been overworked and all have been deprived of many of the comforts to which they are entitled and heretofore enjoyed, but I am glad to be able to say that each one has done his or her full duty at all times. It would be unjust to single out any person or any department of the Hospital for praise; *all* deserve praise for the excellent work done during the past year, and under most disadvantageous circumstances since April 18th. The Hospital as an institution met the conditions resulting from the great calamity which visited our beloved city last April in such a manner as to reflect credit upon its Managers, to justify the support given it by the public and to give it a high place in the esteem of the citizenship of this city.

In reviewing the work of the year I feel it incumbent upon me to express my appreciation of the great assistance given the Hospital in the days following the fire in April by the California Red Cross Society, and particularly by the Vice-President of that organization, Mrs. John F. Merrill. I also want to express that same measure of appreciation and gratefulness to the gentlemen to whom has been intrusted the responsibility of distributing the relief funds sent to this city by a generous people. This Hospital and the entire community is deeply indebted to Hon. James D. Phelan and his associates on the Relief Committee for the active and intelligent work done for the dependent sick. The relations of the Hospital management with this Committee and with the Department of Hospitals, and its able representatives, Dr. J. Wilson Shiels and his assistant, Dr. William J. Hawkins, have been most cordial and satisfactory.

In conclusion, I wish to express to the Board of Managers of the Hospital my grateful appreciation of the cordial support given me at all times, which has made the success of my work possible.

Yours faithfully,

MARTIN W. FLEMING, Superintendent.

MEMORIAL BEDS.

INFORMATION AS TO THE FOUNDING AND MAINTENANCE OF BEDS.

In response to numerous inquiries the managers of the Hospital for Children and Training School for Nurses beg to state as follows:

I. By furnishing bed and bedding and an additional gift of one hundred dollars the donor will be entitled to name a bed, the name to be continued so long as the necessary furnishings are kept in order. By consent of the Board of Managers the donor may suggest who shall occupy the bed, subject to the rules of the Hospital, it being understood that this amount does not support a free patient. The cost of placing such a memorial bed is estimated to be \$175. If this amount be sent to the Treasurer of the Hospital the Committee on Memorial Beds will attend to the purchasing, making and marking of all necessary articles. Persons so desiring can furnish their own supplies.

II. Any church, association or individual contributing \$5000 is entitled to control one child's bed perpetually, or in lieu thereof, may name a room of one or more beds, and such room shall be known thereafter by such name.

III. Any church, association or individual contributing \$10,000 is entitled to control one adult bed perpetually.

All beds must be supplied annually with necessary furnishings. It has been estimated that the cost of such furnishings is about twenty-five dollars. Donors of beds, so desiring, may send the sum of twenty-five dollars to the Treasurer of the Hospital and the Committee in charge of "Memorial Beds" will see that all articles are supplied and marked.

A donation of \$500 dollars will provide for the perpetual furnishings of these beds.

Notice will be sent to all donors annually stating the conditions of furnishings.

LIST OF ARTICLES REQUIRED.

Bedstead	3 pair 10-4 blankets (double
Panel	white).
12 sheets, $2\frac{3}{4} \times 1\frac{1}{2}$ yards.	2 bath towels.
12 pillow cases, 30 x 18 inches.	1 hot-water bag.
12 towels (hemmed).	1 rubber sheet.
3 spreads	

Bedding to be marked in red French cotton with name of bed.

ANNUAL REPORT OF SUPERINTENDENT OF NURSES.

To the President and Board of Managers of the Children's Hospital and Training School for Nurses:

Owing to the concentration of the work in the Hospital since April it was decided to reduce the number of pupils and the school at present numbers forty-two.

To meet the increasing demand for special nurses it will be necessary to increase the number and this will be done as rapidly as desirable applicants present themselves.

The pupil nurses have done 1522 days of special nursing in the Hospital.

During the weeks immediately following the fire in April we were called upon to furnish nurses for outside emergency work, and sent nine nurses to Fort Mason, Presidio and other emergency stations, when they gave 125 days' service.

I wish to record my appreciation of the way the pupil nurses have acquitted themselves under the most unusual and trying circumstances.

I regret to have to report that two nurses have had typhoid fever, but both are convalescing satisfactorily.

In October, owing to ill health, Miss Holden resigned as Night Superintendent, and Miss Dora Tooze, of the class of 1906, was appointed.

We acknowledge with thanks the following generous contributions to the Nurses' Library: \$20 from Mr. F. M. Smith of Oakland; Reference Book from Dr. Harry M. Sherman; New American Encyclopedic Dictionary (5 vols.) from Mr. Martin W. Fleming.

No Graduating Exercises have been held this year, but the class, numbering eighteen, comprises the following:

Laura E. Leonard
 Annie G. Tibbey (Mrs. Long)
 Lora D. Patterson
 Winifred M. Jeffreys
 Clara Shipman
 Cathryn F. Gaynor
 Dora Tooze
 Maud N. Baylis
 I. Theodosia Baylis
 S. Winifred Burge
 Emily S. Halling
 A. Mabel Dickinson
 Edna D. Porter
 Anna B. Chandler
 Agnes Sage Drahms
 Malvina G. Guthrie
 Mary Veronica Stewart

The Training School comprises the following in officers and pupils:

Superintendent of School	1
Assistant Superintendent and Operating Room Nurse.....	1
Head Nurse of the Alexander Maternity	1
Night Superintendent	1
Diet Instructor	1
Seniors	22
Intermediates	7
Juniors and Probationers	13
Total	47

Applicants for admission	127
Probationers admitted	15
Probationers accepted	7
Resigned or dismissed	6

Respectfully submitted,

KATHARINE BROWN, Superintendent of Nurses.

REGULATIONS FOR THE TRAINING SCHOOL FOR NURSES.

The Directors of the Training School for Nurses connected with the Children's Hospital have made arrangements for giving a three years' training to women desirous of becoming trained nurses.

Those wishing to obtain this course of instruction must apply personally or by letter to the Superintendent of the Training School, 3700 California street, San Francisco, Cal. The letter of application should be accompanied by a physician's certificate of sound health and unimpaired faculties and two certificates of good character. Applicants must be between the ages of twenty-one and thirty-one years and of at least average height and physique. They must at least have completed one year of a High School course or its equivalent. They must be able to read aloud well; to write legibly and accurately from dictation; to understand arithmetic, including fractions and percentage; and to take notes at lectures. This amount of education is *indispensable*, but women of superior education will be given the preference.

Candidates, if approved, will be received on probation for three months. During these months of probation, the pupils are boarded and lodged at the Hospital, but if not accepted, receive no other compensation. They are not permitted to join the school formally until the end of the third month, when, if accepted by the Superintendent of Nurses and the Training School Committee, they must sign an agreement to complete the prescribed course of three years and to conform to all rules.

At the end of the first year the record of each pupil is carefully scrutinized and the right is reserved to terminate then, or at any time, the connection of any pupils with the school, or to prescribe a longer course for inefficiency, misconduct, a generally unsatisfactory record, or for any other reason which may be deemed sufficient by the Hospital authorities.

The pupils are employed on day and night duty in the wards, operating rooms, or any other department of the Hospital to which they may be assigned. They are on duty from 7 a. m. to 7 p. m. They are allowed an afternoon (12:30—10:15 p. m.) each week, and part of Sunday, and an additional time for study, rest or recreation. A vacation of three weeks is allowed at the end of the first and second years.

In addition to board, lodging and a reasonable amount of laundry work, the pupils are given a monthly allowance of five dollars. This allowance is not given as payment for services rendered (the training and teaching given, and the profession acquired being considered an ample equivalent), but is given for the purchase of the required uniform and text-books, and to meet other expenses incidental to the training.

In sickness the pupils will be cared for, but the time so lost must be made up.

The course includes practical and theoretical instruction in the nursing of children; the nursing of medical, surgical, obstetrical and gynecological cases; massage, the application of electricity and sick-diet cooking. The instruction is given by the Visiting and Resident Physicians and Surgeons in the Lecture Room and at the bed-side of the patients, and by the Superintendent of Nurses and her assistants.

Examinations are held at stated intervals and pupils cannot pass to more advanced work unless they obtain on critical marking an average of at least 70 per cent. On satisfactory passing the final examinations the pupil-nurses will be awarded the diploma of the Hospital Training School.

As the Institution is non-sectarian there are no religious services connected with it, but all nurses are given the opportunity of attending the place of worship they prefer on Sunday.

QUESTIONS FOR APPLICANTS.

A paper containing the following questions will be sent to the applicant to be filled out in her own handwriting and returned to the Superintendent of Nurses, Children's Hospital, 3700 California Street, San Francisco, California.

1. What is your full name?.....
2. What is your age?.....
3. State date and place of your birth?.....
.....
4. What is your height?.....
5. Weight?
6. Are you single, married, divorced or widowed?.....
7. Have you any one dependent on you for support?.....
8. Are you otherwise free from responsibility, so that you are not liable to be called away during the term of three years?.....
9. Are your eyesight and hearing perfect?.....
10. Have you any tendency to pulmonary disease?.....
11. Have you any physical defects?.....
12. What illness have you had?.....
13. In what schools were you educated?.....
.....
14. How far have you gone in these schools?.....
15. What is your present occupation, and what have been your previous pursuits?
16. Have you ever been in a training school, or employed in a hospital or asylum? If so, when, where, and how long at each place?..
.....
.....
.....
.....
.....

17. Give the names and addresses of two (2) persons, not your relatives, and also of your physician, and state how long each has known you
18. Give home address of your parents, or your nearest relative.....
19. If accepted, when would you be ready to enter the school?.....

I, the undersigned, having read the conditions of admission, and clearly understanding and agreeing to them, do declare the above statement to be correct. And if accepted as a candidate, I will, in all respects, comply with the rules and regulations of the School and Hospital.

Signed.....

COURSE OF STUDY.

FIRST YEAR.

INSTRUCTION GIVEN BY SUPERINTENDENT OF NURSES AND ASSISTANTS.

Bed-Making—for bed-patients, for convalescents.

Preparation of bed for an operation-patient, fracture-beds, pads, head-rests, lifting, moving.

Hygiene of sick-room and ward—Ventilation, methods of ventilation, temperature of sick-room, disposal of excreta and soiled dressings.

Care and cleanliness of ward utensils.

Care of new patients, of bed-patients, of convalescent patients.

Baths—Classification and temperature, baths for cleanliness, baths as therapeutic agents; hot-air, steam, mustard, salt baths; sponge and tub baths in typhoid fever; the cold pack; prevention and treatment of bed sores.

Disinfectant solutions—Disinfection of rooms, clothing, excreta and vessels.

Bacteriological notes.

Care of appliances—Douches, catheterization.

Enemata—Kings, preparation, methods and frequency of administration.

L L L

Temperature—Pulse, respiration, care of clinical thermometer charting.

Counter-irritants—Cups, mustard plasters and leaves, cantharides, turpentine, iodine, liniments, the cautery.

External and local applications—Dry-heat, moist-heat, fomentations, poultices.

Medicines—Methods of administration, dosage, weights and measures, symbols and abbreviations.

How to observe, report and record symptoms.

ANATOMY AND PHYSIOLOGY.

Thirty-five weekly classes—given by the superintendent of nurses.

BANDAGING.

S. J. HUNKIN, M. D.

1. Extremities.
2. Trunk and Head.
3. Orthopedic Appliances.
4. Review.

HOSPITAL FOR CHILDREN AND
OPERATING ROOM TECHNIQUE—3 LECTURES.
GEO. J. MCCHESENEY, M. D.

SECOND YEAR.

ANATOMY.

W. B. LEWETT, M. D.

ORTHOPEDICS.

JAMES D. WATKINS, M. D.

1. Club Foot.
2. Flat Foot.
3. Diseases of Spine.
4. Hip Disease.
5. Disease of Knee Joint.
6. Examination.

DIETETICS.

(12 lessons.)

MISS CAROLINE M. GILBERT.

First Half—General food principles, their chemical composition, relative food value, method of cooking, etc.

Second Half—Preparation of special diets for different diseases.

Practical work—Three months' practice in the preparation of formulas for infant feeding and of light and full diets for adult patients.

OBSTETRICAL NURSING.

ADELAIDE BROWN, M. D.

1. Anatomy of Pelvis and its Organs.
2. Hygiene of Pregnancy.
3. Labor—(1)—Normal; (2) Abnormal.
4. Preparations for and Nursing during Labor.
5. The new born infant and its care.
6. The Puerperium—(1) Normal; (2) Abnormal.
7. The nursing of the Puerperium.
8. The nurse in private work in Obstetrics.

SURGICAL AND GYNECOLOGICAL NURSING.

EMMA K. WILLETS, M. D.

1. Bacteriology; Sepsis, asepsis, antisepsis.
2. Preparation of patient for examination and treatment.
3. Preparation of patient for operation; Major and minor.
4. Operating room technique in hospital and private home.
5. After care of patient in general and gynecological surgery.
6. Surgical emergencies.

NURSING OF CHILDREN.

EMMA SUTRO MERRITT, M. D.

FRANCIS R. SPRAGUE, M. D.

1. Feeding in Health and Sickness during the First Twelve Months.
2. Feeding in Health and Sickness after the First Twelve Months.
3. Development and Care of Children.
4. Surgical Nursing of Children; Fractures; Splints.
5. Nursing in the Non-Contagious Diseases of Childhood.
6. Nursing in some of the Contagious Diseases of Childhood.
7. Nursing in Diseases of the Skin.

THIRD YEAR.

MEDICAL NURSING.

WM. WATT KERR, M. D.

1. Pulse in Disease.
2. Nursing in Cardiac Disease.
3. Nursing in Pulmonary Disease.

MATERIA MEDICA AND THERAPEUTICS.

JULIA P. LARSON, M. D.

- 1-2. How Drugs Produce Their Effects, Methods of Administration.
Elimination, Dosage.
- 3-4. Antispasmodics, Depresso-motors, Somnifacients, Anaesthetics.
- 5-6. Excito-motors, Delirifacients.
- 7-8. Cardiac Stimulants, Cardiac Depressants.
- 9-10. Tonics, Alternatives, Antiperiodics, Antipyretics, Astringents,
Emetics, Cathartics, Diuretics, Diaphoretics, Expectorants.

HYGIENE.

LUCY M. F. WANZER, M. D.

1. Air, Water, Habitation.
2. Personal Hygiene and Hygiene in Relation to Disease.
3. Sanitary Law.

MASSAGE

Genevieve Cook, Masseuse.

Ten Practical Demonstrations.

EYE, EAR AND THROAT.

EDWARD K. HOPKINS, M. D.

1. Anatomy of the Eye and Ear.
2. The Treatment and Nursing of Injuries and Diseases of the Eye and Ear.
3. Anatomy of the Throat; Nursing of Croup, Diphtheria, etc.

BEQUESTS.

By the law of California (C. C., Sec. 1313) no estate shall be bequeathed or devised to any charitable or benevolent society or corporation, except the same be done by will duly executed at least thirty days before the decease of testator.

FORM OF BEQUEST.

"I give and bequeath to the 'Hospital for Children and Training School for Nurses,' a corporation of the State of California, the sum of....., dollars."
